

HP Flat Conversion Varnish

See The
CLEAR Difference

High Performance Conversion Varnish is a new generation of water white, non-yellowing, self sealing post catalyzed conversion varnish. High Performance Water White Conversion Varnish was specifically designed for kitchen cabinets, furniture, millwork and interior wood surfaces that are exposed to moisture, heat and household chemicals.

This product passes all KCMA tests and AWI System 5, Conversion Varnish, for household chemicals, solvents and moisture resistance tests. It is available in Flat 7 Sheen, Dull 15 Sheen and Satin 35 Sheen.

ADVANTAGES

- Fast dry times
- Excellent durability and smooth to the touch
- Close to the wood appearance
- Excellent application sanding properties
- UV resistance and color stability
